Report Objective

This report presents a validation summary of training data for programs conducted by **IBA** Institute. It aims to differentiate valid data (e.g., complete, correctly categorized, and accurately counted trainee records) from potential anomalies or missing/incomplete information.

Initial Trainee Distribution Analysis

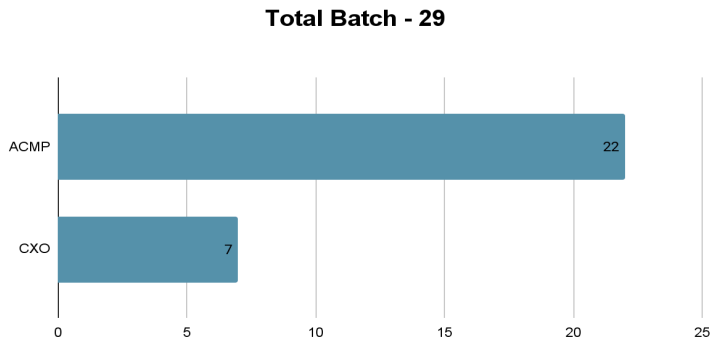

This section details the distribution of the 1,179 trainees between the two main training programs.

Total Trainees: 1,179
ACMP Program Enrollment: 969 trainees
CXO Program Enrollment: 210 trainees

Total Batch Distribution

This section analyzes the allocation of the 29 training batches across the ACMP and CXO programs.

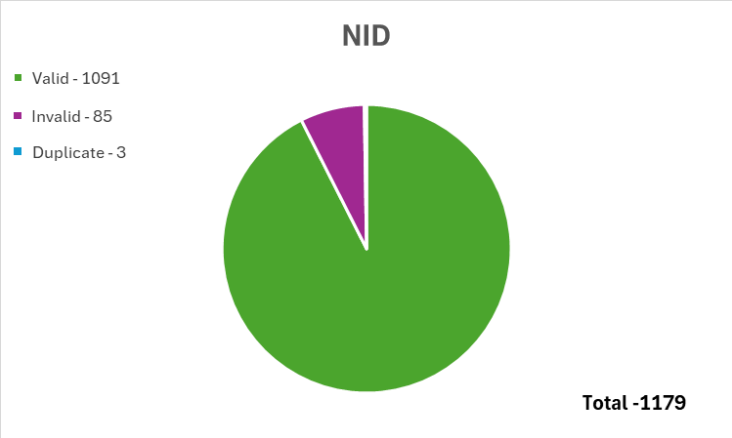

Total Batches: 29
ACMP Program Batches: 22
CXO Program Batches: 7

`

NID Data Validity

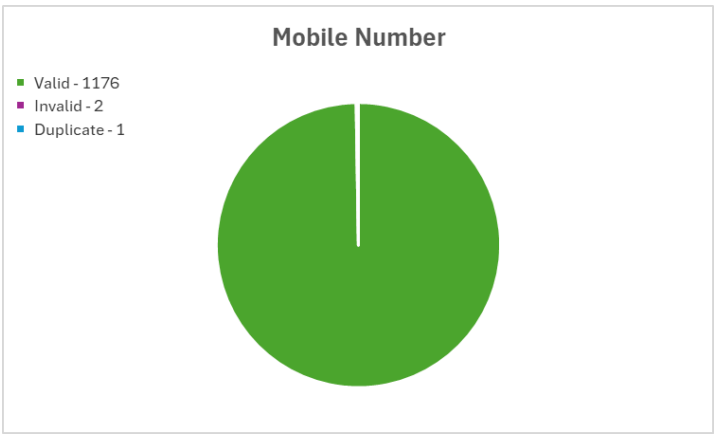

This section presents the findings from a quality check on the trainee's National ID (NID) data. A total of 1,205 records were reviewed.

- **Valid NID Records:** 1,117 (representing 92.7% of the reviewed data)
- **Invalid NID Records:** 85 (representing 7.1% of the reviewed data)
- **Duplicate NID Records:** 3 (representing 0.2% of the reviewed data)

Mobile Number Data Validity

This section covers the findings from a quality check on the trainee's mobile number data. A total of 1,179 records were reviewed.

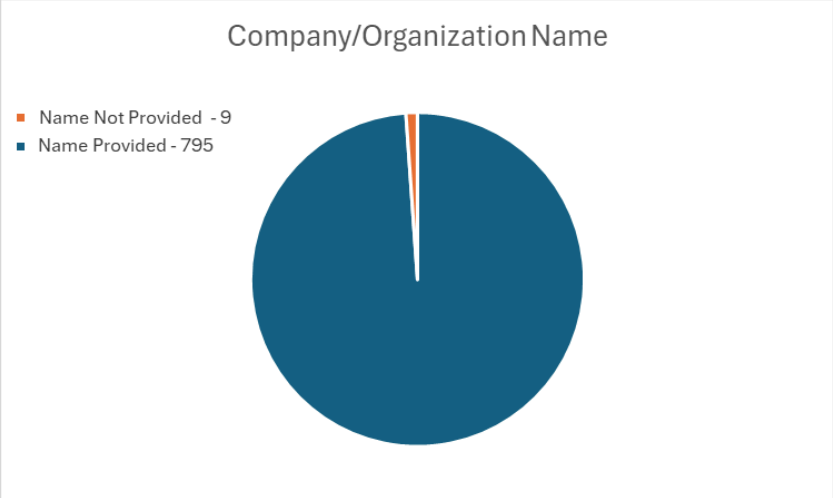

- **Valid Mobile Number Records:** 1,176 (representing 99.7% of the reviewed data)
- **Invalid Mobile Number Records:** 2 (representing ~0.2% of the reviewed data)
- **Duplicate Mobile Number Records:** 1 (representing ~0.1% of the reviewed data)

`

Company/Organization Attended on Trainee Data

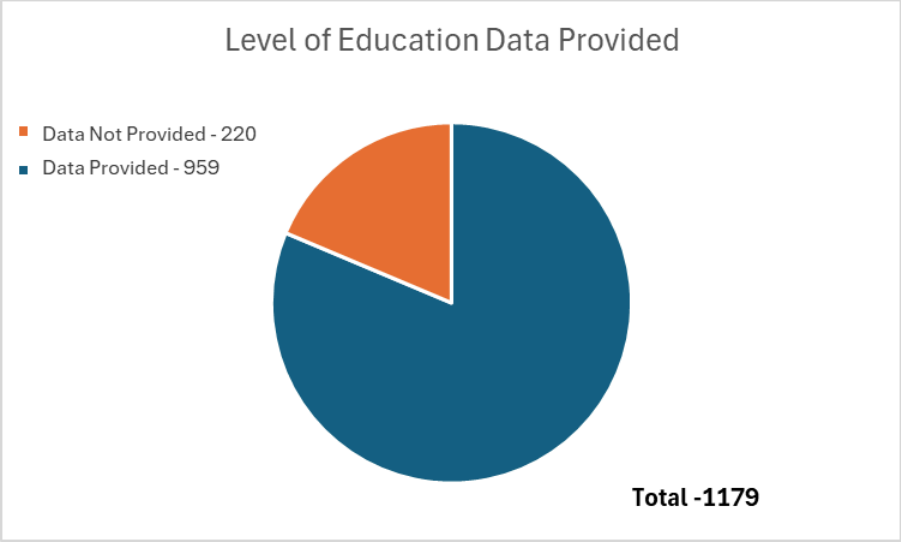

This section details the completeness of the Company/Organization Name field for a subset of 804 trainee records.

- **Name Provided:** 795 records (representing 98.9% of the reviewed data)
- **Name Not Provided:** 9 records (representing 1.1% of the reviewed data)

Level of Education Data

This section covers the findings from a completeness check on the trainee's Level of Education data. All 1,179 trainee records were reviewed.

`

Data Provided: 959 records (representing 81.3% of the total)

Data Not Provided: 220 records (representing 18.7% of the total)

Remarks

Attendance data is currently unavailable in the system, hence no chart can be displayed.
